

D. 6. SAMPLE QUESTIONNAIRE FROM “A” MENNONITE CHURCH

This questionnaire was developed for use in an every home visitation approach. The “Evaluation Team” distributed these to every mailbox in advance, and then arranged for an interview time with each participant, couple or family.

We want to learn more about ourselves as a church family, about Pastor _____’s ministry among us, and about how we can learn to improve our congregational life together. In order to work at this, the deacons and church chairperson will be using the following questions to interview individuals and families. Please ponder these questions and be prepared to answer when one of these leadership couples comes to your home.

Congregational Life

What aspects about our congregation do you appreciate most?

In what area of our congregational life would you like to see more growth?

Pastor _____’s Ministry

What aspects of ministry do you especially value and in what aspects of his/her ministry would you like to see growth?

How can we as a congregation strengthen his/her ministry among us?

Personal Participation

In what ways would you like to see growth in your spiritual life, and how can the church family assist this?

In terms of your personal participation, what are ways that you would enjoy being more involved in our church family?

The information gathered from the survey will be compiled and presented to the pastor, with responses being kept confidential. However, should you want to speak to the pastor personally about any of the above, please feel free to do so.
